

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

### Record Plans of Abandoned Mines.

---

Under the Coal Mines Act, 1887:—Sect. 38 (1.) “Where any mine or seam is abandoned, the owner of the mine or seam at the time of its abandonment shall, within three months after the abandonment, send to a Secretary of State an accurate plan showing the boundaries of the workings of the mine or seam up to the time of the abandonment, and the position of the workings with regard to the surfaces, and the general direction and rate of dip of the strata, together with a section of the strata sunk through, or if that is not reasonably practicable, a statement of the depth of the shaft, with a section of the seam. Every such plan must be on a scale of not less than that of the Ordnance Survey of twenty-five inches to the mile, or on the same scale as the plan used at the mine at the time of its abandonment.” (2.) “The plan and section shall be preserved under the care of the Secretary of State; but no person, except an inspector under this Act, shall be entitled, without the consent of the owner of the mine or seam, to see the plan when so sent until after the expiration of ten years from the time of the abandonment.”

Under the Metalliferous Mines Act a similar requirement exists, but with an exemption of mines in which not more than twelve persons have ordinarily been employed below ground.

In addition to the plans deposited under these Acts, plans transferred from the late “Mining Record Office,” Museum of Practical Geology, Jermyn Street, in 1883, are now at the Home Office.

The list shows which of the plans have been deposited for more than ten years and are open for inspection by the public without the consent of the person who was the owner at the time of abandonment.

## LIST OF PLANS OF ABANDONED MINES

Deposited in the Home Office under the Coal and Metalliferous Mines Regulation Acts, together with Plan transferred from the late "Mining Record Office," Museum of Practical Geology, Jermyn Street, in 1883.

Corrected to 30th June 1889.

**NOTE.**—Mines that have been abandoned for more than 10 years are marked with an asterisk, the plans being open to the inspection of the public on application to the Secretary of State.

Names of Mines printed in italics indicate plans which were transferred from Jermyn Street. These plans are open to the inspection of the public.

The letters **C** and **M** indicate that the plans were deposited under the "Coal" or "Metalliferous" Mines Act.

The numbers in column "Inspection District" refer to the Districts, as follows:—**1.** East Scotland; **2.** West Scotland; **3.** Newcastle; **4.** Durham; **5.** Yorkshire and Lincolnshire; **6.** Manchester and Ireland; **7.** Liverpool; **8.** Midland; **9.** North Wales and Isle of Man; **10.** North Staffordshire; **11.** South Staffordshire; **12.** South Western; **13.** South Wales; **14.** Cornwall, Devon, &c. (A list of the Counties included in each District is given on pages 62 and 63, and the extent of each District is shown by the Maps.)

Register Number.	Name of Mine	Where situated.		Number of Inspection District.	Minerals worked, and in the case of Coal the Name of the Seam.	Date when received.	Remarks.
		Parish.	Post Town.

							Series of 23 plans and sections of abandoned mines in the Ovoca District, presented by G. H. Kinahan, Esquire, M.R.I.A.
							Drowned out in 1844.

### Mines Inspection Districts.

The districts referred to are the fourteen into which the United Kingdom is divided for purposes of inspection under the Coal and Metalliferous Mines Regulation Acts; they are arranged in the following table geographically and are numbered from North to South, commencing with Scotland. Maps showing the extent of each District are annexed.

TABLE OF DISTRICTS.

District.		Chief Inspector.	Assistant Inspector.	Secretary to Board for Examination, and Month in which Examinations are held.
Under the Coal Mines Act. (See Map, No. 1.)	Under the Metalliferous Mines Act. (See Map, No. 2.)			
1. SCOTLAND, EAST DISTRICT, comprising counties of Clackmannan, Edinburgh, Fife, Haddington, Kinross, Linlithgow, Perth, Sutherland, upper and middle wards of Lanark, and part of Stirling.	Clackmannan, Edinburgh, Fife, Haddington, Inverness, Kinross, portions of Lanark, Linlithgow, Perth, Shetland, part of Stirling, and Sutherland.	Ralph Moore, Esq., 13, Clairmont Gardens, Glasgow. 1862. (Retired 1888.) J. B. Atkinson, Esq., 10, Foremount Terrace, Glasgow. 1878. Promoted 1889.	Rob. McLaren, Esq., Uddington, Glasgow. 1885. Hugh Johnstone, Portland Park, Hamilton, N.B. 1887.	Robert Calder, Esq., 3, Fintry Place, Broughty Ferry, N.B. (May.)
2. SCOTLAND, WEST DISTRICT, comprising counties of Argyle, Ayr, Dumfries, Dumbarton, Renfrew, and portions of Lanark and Stirling.	Argyle, Ayr, Dumfries, Dumbarton, Kirkcudbright, Renfrew, Wigton, and portions of Lanark and Stirling.	John M. Ronaldson, Esq., 44, Athole Gardens, Glasgow. 1875. Promoted 1886.	Thos. H. Mottram, Esq., 6, Donne Quadrant, Glasgow.	Stuart Foulis, Esq., 140, Hope Street, Glasgow. (November.)
3. NEWCASTLE DISTRICT, comprising counties of Cumberland, North umberland, and part of Durham.	Cumberland, Northumberland, and the detached part of North Lancashire.
